GARDENERS CHECKLIST

- Week: December 22-29, 1957
1. A first spraying to prevent peach leaf curl should be given now. This also applies to nectarines.
 2. Red berried plants such as pyracantha, hollies and cotoneaster, are adding a festive note to gardens during the holidays. Next year it could be in your garden. Check your local nursery for fine specimens now.
 3. It's not too early to start pruning fruit trees, roses and shrubs. Dormant spraying will help reduce garden pests.
 4. A few handfuls of bug pellets will snag those pesky snails and slugs.
 5. Among the plants in bloom at nurseries in containers now are daphne, heathers, cyclamen, azaleas and camellias.

Volunteers Ask Adoption Of Patients

A chance for groups to "Adopt A Ward" or for individuals to aid less fortunate individuals was made available today with the announcement the Volunteers Auxiliary of Harbor General Hospital is seeking active support in plans for a Christmas celebration at the hospital.
Under the "Adopt A Ward" program planned by the women of the Auxiliary, groups could, for a minimum cost, brighten Christmas Day for 30 to 33 patients at a time. The hospital would furnish such sponsoring groups with the names and ages of all patients in the ward to be "adopted," making it possible for the group to provide individual type presents.
Full information on the group or individual plans may be obtained by contacting Mrs. Marguerite McAllister.
